## Destini Q3 net profit rises 66% to RM7.1mil

**PETALING JAYA:** Destini Bhd's net profit for its third quarter ended Sept 30 rose 66% to RM7.1mil from RM4.2mil in the same period last year due to the increase in demand for the group's maintenance, repair and overhaul (MRO) services and marine manufacturing services.

The company, which provides MRO services to the military, said its revenue for the period more than doubled to RM90.3mil from RM39.1mil a year ago, while earnings per share increased to 0.88 sen from 0.54 sen a year ago.

For its nine months to-date, net profit increased 35% to RM11.55mil from RM8.5mil a year ago, while revenue jumped 70% to RM179mil from RM105mil compared to last year.

Moving forward, Destini expects the group's operating environment to remain challenging and competitive.

Barring any unforeseen circumstances, the group's operational results for the financial year 2015 will be satisfactory, it said.
